FACULTY OF HEALTHCARE & PARAMEDIC SKILLS EDUCATION

**BHARTIYA SKILL
DEVELOPMENT UNIVERSITY**

A black and white photograph of a female medical nursing assistant in a white lab coat. She is leaning over a medical training mannequin lying on a gurney, performing CPR. Her hands are positioned on the mannequin's chest, and she is looking down at her work. The background shows a clinical setting with a white curtain.

DIPLOMA IN MEDICAL NURSING ASSISTANT

The Medical Nursing Assistant (MNA) program offers an opportunity to enter the healthcare sector. The Diploma in Medical Nursing Assistant program prepares the students in every aspect to become competent nursing assistant for execution of various tasks related with care of the patient and trains them to assist nurse in medical procedures.

There is a high demand for skilled healthcare professionals across hospitals, home care, clinics, and rehabilitation centers, making the Diploma in MNA an ideal choice for a promising career. After gaining experience as Medical Nursing Assistant, student can pursue future education in Healthcare. Alternatively, they can explore opportunities in healthcare.

The Program is based on an industry-relevant curriculum that is updated regularly to reflect the latest advancements in the field.

The Faculty of Healthcare and Paramedic Skills runs its course in collaboration with multiple hospitals, home care and clinics that provide support in the internship and placement of the students.

SWISS DUAL SYSTEM

The Swiss Dual System of Vocational Education is a highly respected model globally renowned for its effectiveness in preparing individuals for successful careers in various industries. It combines practical, on-the-job training, with classroom-based learning thereby offering a unique blend of theoretical knowledge and hands-on experience.

- **Dual Structure:** The education system is structured around two main components: vocational school education and company-based training. Students spend part of their time in vocational schools, where they acquire theoretical and practical knowledge relevant to their chosen profession and the remaining time is spent in companies, where they undergo practical training under the guidance of experienced professionals.
- **Partnership with Industry:** Swiss vocational education programs are developed and implemented in close collaboration with industry partners and industry associations. This ensures that the curriculum is aligned with the current needs and requirements of the market.

- **Preparation for Life:** An important component of the curriculum includes education in life skills and critical thinking. These skills prepare students not only for the workplace, but also for their long-term growth and success.

HOW BSDU IS BETTER THAN ANY OTHER SKILL UNIVERSITY

- Stipend during second and fourth trimester when the students work with home care organizations
- Training by experts/visiting faculties from Switzerland
- Hostel facility available separately for boys and girls
- Merit-based Scholarships & Fee Concessions to eligible students

JOB ROLE & WORKPLACE TRAINING

A Medical Nursing Assistant (MNA) works in all spheres of the healthcare system, such as hospitals, clinics and in homecare. The MNA supports the nursing staff in caring for patients and thus makes a valuable contribution to the healthcare system.

Out of this the nursing staff can delegate executive tasks to the MNAs, which they can carry out independently or can assist the professional

staff. Caring for patients whose health conditions can fluctuate from stable to unstable present significant challenges. Managing this increased complexity requires not only accurate task execution but also the ability to adapt to new and unfamiliar situations.

DIPLOMA IN MEDICAL NURSING ASSISTANT

DURATION

1 Year

ELIGIBILITY CRITERIA

10+2 in any stream

SELECTION PROCEDURE

Admission will be through an entrance exam followed by personal interview

- Support people with mental illnesses
- Help students to become socially responsible, culturally aware and ethically better individual

KEY COMPETENCIES

The Faculty of Healthcare and Paramedic Skills education focuses on a complete framework towards all the areas of competencies required to become a successful professional in the healthcare industry. For each area, we define specific competencies that encompass holistic skills such as:

■ Hygiene

Students learn hygiene measures of all kinds that forms the basis for preventing or reducing the transmission of diseases. The focus is on knowledge of transmission routes, cleaning, disinfection and sterilization tasks and the implementation of isolation measures. The MNAs apply routine hygiene measures independently.

■ Maintain Health

MNA students exhibit adeptness in providing nutritional support tailored to patient preferences and needs, fostering a positive environment for patient feeding while offering both physiological and psychological support to uphold overall health.

■ Assist Patients

The main basis of assisting patients is to help them and to deliver quality patient care. The emphasis is placed on aiding patients in personal hygiene, mobility, elimination, addressing respiratory issues, and managing their nutritional needs.

■ Professional Communication

The basis for communication with patients, caretakers and relatives is to provide clear

information, understanding and addressing concerns, demonstrating empathy and respect to build trust and foster a collaborative healthcare environment. The MNAs communicate with patients and their families by building trust through explaining procedures, answering questions, providing updates on patients' condition, respecting privacy and being culturally sensitive.

■ New and Unexpected Situations

The basis of handling new and unexpected situation is to maintain calm atmosphere while prioritizing safety through critical thinking and collaborating with the team. The MNAs adapt and respond effectively and contribute to a safe healthcare environment.

■ Teamwork

The MNAs know their tasks and responsibilities within the team. Working together guarantees patient's best care. The MNAs are able to act as a team member and thus contribute to a good result.

FUTURE PROSPECTS

Medical Nursing Assistants are in high demand to cater to the ageing population and increasing healthcare needs. It's an excellent career option for those interested in the healthcare field.

The MNAs have opportunities to work with:

- Hospitals
- Clinics
- Nursing Homes
- Home Cares

The following positions in Government organizations are also among the available options for students:

- Nursing Assistant
- Nursing Orderly

INFRASTRUCTURE AND EQUIPMENT

The Faculty of Healthcare & Paramedic Skills Education boasts of top-tier imported manikins, offering students unparalleled hands-on learning experiences in various areas of patient care such as CPR, catheterization care, wound dressing, bathing and more. Complementing these are other essential tools like suction machines, AEDs, anatomical models, hospital beds, crash cart trolleys, and spine boards, creating an authentic hospital environment for comprehensive training.
